DETAILED ACTION

This is in response to claims and arguments filed 6/11/2007.

Allowable Subject Matter

Claims 3,4,9-11 and 14-17 are allowed.

The following is an examiner's statement of reasons for allowance: The inventive feature of this ligating clip is not found in the prior art of record or in combination with another patent, the inventive feature being at least one detent extending outwardly from the male locking member with two spaced-apart detents each with an inwardly turned lip extending toward the flexible hinge section, this is not found in Oh et al., Schneider, or Sixto in whole or in combination, as these patents are lacking the structure found in the detents of the current application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
